

21st Century Archimedes

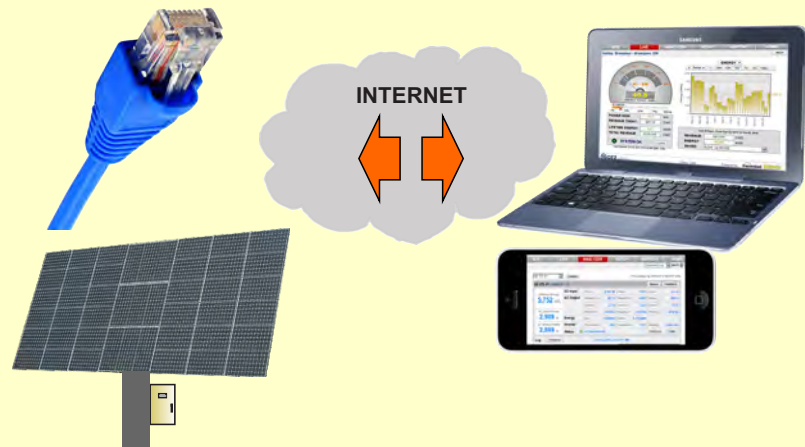

250 BC

Give me a lever and I will move the world

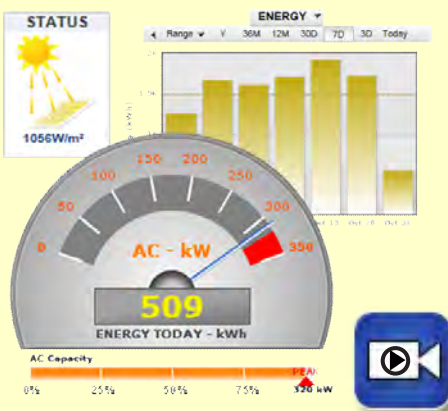

2015 AD

Give me a plug and I will control the world

If [Archimedes](#) were alive today, he would be making quotes about the power of the internet. [Cloud](#) computing technology can help you increase energy generation revenues by installing a SolarVu portal on your solar PV sites. Whether down the street or in another country, receive fault warnings and reports so you can ensure all your systems are producing at maximum output. Each SolarVu portal is added to a SMART Enterprise account for viewing status of a complete portfolio on one screen.
